

National and international cooperation

graduate and postgraduate education with Semmelweis University, University of Debrecen and University of Pécs for

- students and residents of occupational health, PhD research
- nurses
- health managers
- and specialists in workplace health protection

Postgraduate education for occupational health physicians

- Obligatory, accredited courses
- National Examination board in Occupational Medicine

Conclusion

- theory
- practice
- research

- It is the basis for education of occupational healthcare.
- This is the key of efficiency.
- This must be the future way to education of occupational healthcare.
- **This knowledge guarantees the health of employees.**

The city of Miskolc

It is in the North-Eastern part of Hungary

Health Care and Methodology Centre

The city of Miskolc

It is in the North-Eastern part of Hungary

- It is the third biggest city in Hungary
- Once it used to be an industrial town, nowadays it is a university centre

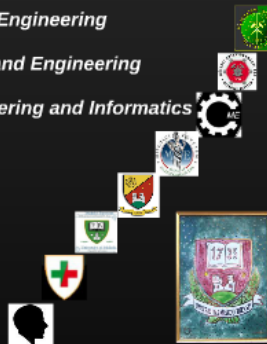

The University of Miskolc

- It is situated outside the city in a greenbelt, the place is called Egyetemváros (the City of the University)

The University of Miskolc is a real „Universitas” with 8 faculties.

- Faculty of Earth Science and Engineering
- Faculty of Materials Science and Engineering
- Faculty of Mechanical Engineering and Informatics
- Faculty of Law
- Faculty of Economics
- Faculty of Arts
- Faculty of Health Care
- Béla Bartók Institute of Music

The University of Miskolc

- We tried to transform the disadvantage of being out of the city into an advantage, and we brought closer the health services to all university people.

It is in the North-Eastern part of Hungary

Health Care and Methodology Centre

- This is a Multidisciplinary healthcare centre

- with basic and special occupational healthcare
- GP, Family doctor
- Dental health service
- Laboratory
- Ophthalmology
- Otolaryngology
- Audiology
- Neurology
- Rheumatology
- Physiotherapy
- Gynaecology

- We have a 25-bed in-patient section for the health services of students.

3 fields of activity

- prevention
- cure
- research
- education

- students
- employees

- students
- researchers

- students
- employees

Prevention and cure

We started a complex healthcare program in 1989 (between eighty-nine)

This program initially targeted the employees, and was extended for students in 1995. (nineteen ninety-five)

More details of this program in the next presentation:

"Workability of employees with chronic diseases"

Research

Some topics:

- Possibilities for increasing workability of ageing employees
- Health effects of psychosocial strain and methods for decrease
- Health effects of ergonomic risks and steps for prevention
- Increasing the efficiency of neck rehabilitation
- Health effects of unemployment longer than six months

• Students are active participants of the research

• These topics are themes for their diploma work

Education

Subjects for the graduate and undergraduate courses:

- Occupational health
- Work safety
- Healthcare transition
- An external subject for all faculties, and obligatory for the programs of Faculty of Technology
- Not only for students, but also for employees
- Individual or group instruction
- Workload factor: prevention
- Workload factor: workplace assessment
- State of health
- Preventive medicine

Prevention and cure
